Mario's reflections

Table of contents

2022-01-17

- Getting used to collaborate and discuss on github, instead of just using it as a repository for my own stuff.
- Was hard to understand and process the concept of a scoping-review at first, but get it now!

2022-02-22

- It is difficult to think about efficient frameworks in which we all can collaborate. However, the more effort you put into the framework, the smoothest we will work all together.

2022-06-08

- I could only work from 21 to 23, so I was mostly catching up with stuff. The amount of things done by the collaborators sometimes can be overwhelming without a good reporting structure. Nobody used the minutes strategy, so I cannot know what they've been working on or what can I help with.
